

We hispanic people need equal access to hearing people speak spanish in any bussines,any countries languagees from south america telephone company allow access Asl/spanish to Spanish.

All vrs services at all companies providers services shall set up ASL to Spanish vrs services.

Many of hispanic tried to call Spanish.Fedvrs.Tv that their required only Federal workers to provide Asl TO Spanish vrs service why not ever fair to all to use any companies vrs to provide ASL to Spanish to all companies ar which I can choose vrs open to all public need to communicate non english from family,friends,companies, social security spanish office,IRS spanish,etc we shall equals access vrs to provide AASl to Spanish.

Another problems make me sick with VP-100 sorenson systems have blocked ready to call dial ip address sample " spanish.vrs.Tv" that sorenson blocked everytimes any companies intepreter services for the deaf.Please stop them open our choose any intepreter.

Thank you
